CEU Handbook

Continuing Education Units for Kansas Early Education and School Age Programs
 October, 2001 A Project of the Professional Development Initiative for Early Care and Education in Kansas (PDI)

INTRODUCTION

This book has been developed to help guide sponsoring agencies through the process of applying for and getting approval for CEU credits. The book is presented in 3 chapters: CEUs — what they are, how they work; Instructions; and Forms.

The first chapter explains in depth what CEUs are all about. In addition, all procedures and clarifications of application and approval processes are listed.

The second chapter contains all the information you need to complete the forms necessary for CEU approval.

The final chapter contains the necessary forms with sample pages to show you how to complete them, and sample evaluations and attendance certificates. These forms may be copied from the book or obtained from our website at www.kaccrra.org.

I hope you find this booklet helpful. Please contact me if you have any questions or need further information.

CEUs — what they are, how they work

Why were CEUs developed in the first place?

Continuing Education Units (CEUs) for Kansas Early Education and School Age Programs provide a systematic way to ensure quality, uniformity and accountability for non-credit learning activities.

In 1970, the Council for Continuing Education, currently known as the International Association for Continuing Education Training (IACET) located in Washington DC, developed ten criteria to guide the use of the Continuing Education Unit (CEU) as a uniform unit of measurement of post high school education for NON-CREDIT learning activities. Standards were developed to solve these issues:

1. A nationally recognized and accepted unit was needed to reduce confusion and fragmentation inherent in the variety of non-credit hour learning systems in use.
2. A building block was needed that could be used to further a participant's career development.
3. Learning activities needed to ensure standards of quality in administration and programming of professional development opportunities.

In 1996, the Council for Early Childhood Professional Recognition in Washington, DC, issued a new continuing education requirement specifying either college credit or CEUs for Child Development Associates (CDAs) seeking to re-new their Credential. The purpose of the requirement is to create an early care and education workforce that maintains current knowledge and skills in their work with young children through continued professional development. The Council supports the criteria established by the IACET.

CEUs for Kansas Early Education and School Age Programs

The Professional Development Initiatives for Early Care and Education in Kansas (PDI) formed a committee for the development of CEUs system to support quality, uniformity and accountability for learning activities and to support the need for CEUs to renew the CDA Credential. A pilot project to test a model for CEUs was initiated in 1998. The CEUs for Kansas Early Education and School Age Programs meet the ten criteria established by the IACET and the criteria for CDA Credential Renewal. As with any new project, the system continues to develop and change to meet the needs of the field. The CEU project now awards CEUs for early education and school age programs.

So, what are CEUs anyway?

CEUs provide a uniform, systematic way for measuring actual time spent involved in learning activities and for ensuring that minimum standards for quality non-credit hour learning activities are met.

One CEU represents 10 contact hours of participation in an organized learning activity. Time for lunch and breaks are NOT included in the contact hours. The Kansas project does not award CEUs for learning activities that require less than a total of 4 contact hours of organized activities. Learning activities may be conducted in not less than a 2-hour time frame per contact time period. Learning activities must be scheduled to begin and end within a reasonable overall time frame that is conducive to adult learning.

CEUs will accommodate non-credit hour learning activities that meet the minimum criteria as established by the IACET and as outlined in this handbook.

CEUs are accepted nation-wide as a uniform unit of measurement to facilitate the accumulation and exchange of standardized information.

CEUs are computed and recorded by the Sponsoring Agency. Records must be maintained for seven years. You may contact KACCRRRA regarding transcript availability at:

KACCRRRA
PO Box 2294, Salina, KS 67402-2294
Toll Free 1-877-678-2548
kaccrra@kaccrra.org • www.kaccrra.org

CEUs represent a system for setting standards for quality learning activities that are designed for individuals in the early care and education field and must meet learning outcomes as stated in the Core Competencies for Early Care and Education Professionals in Kansas and Missouri. A copy of the Core Competencies can be obtained from the above address or your local resource and referral agency.

This handbook and CEU forms are available on-line at www.kaccrra.org.

What are the ten criteria governing the use of CEUs?

The Council for Early Childhood Professional Recognition, Washington, DC (800-424-4310) is responsible for setting the standards for and issuing the Child Development Associate credential (CDA). The criteria established by the Council meets the standards set by the IACET. CEUs for Kansas Early Education and School Age Programs requirements also meet the ten criteria outlined below.

1. Planned learning activities must be in response to educational needs that have been identified for a target audience. Learning activities must contribute directly to the learner's professional competence in the field of early education.

2. Learning activities must include clear and concise written statements of intended learning outcomes (see “Writing Learning Outcomes”, page 8). Outcomes must be measurable and/or observable and achievable in the time allocated for the training. The learner has a clear understanding of the outcomes.
3. Qualified instructional personnel are involved in planning and conducting each learning activity (See “Instructor Qualifications”, page 9).
4. Content and instructional methods are appropriate for the intended learning outcomes of each learning activity.
5. Learners will show evidence of the acquisition of skills, knowledge and ability.
6. Each learning activity is evaluated by the participants regarding the relevance of the content to the stated objectives, the teaching effectiveness of each instructor, participants’ achievement of each learner objective, and appropriateness of the physical facilities.
7. The sponsor of the learning activity has an identifiable unit, group, or individual with clearly defined responsibilities for developing and administering learning activities.
8. The sponsor of the learning activity has a review process in operation that ensures that CEU criteria are met. An individual may not be a sponsor.
9. The sponsor of the learning activity sends a complete record of each individual’s participation to KACCRRRA and a transcript of that record is available upon request for at least seven years.
10. The sponsor of the learning activity provides an appropriate learning environment and support services.

What are the benefits for obtaining CEUs and what are the responsibilities of the learner?

The benefits of Continuing Education Units (CEUs) to the learner are as follows:

1. Learning activities approved for CEUs for Kansas Early Education and School Age Programs must meet minimum quality criteria including qualifications of the trainer and learning activities with clearly stated learning outcomes that are intended for individual’s working in the early care and education field. The learner will be able to choose learning activities that are specifically designed for the early education field.
2. Learning activities approved for CEUs must be based on the Core Competencies for Early Care and Education Professionals in Kansas and Missouri. The Professional Development Initiative for Early Care and Education in Kansas (PDI) encourages individuals to develop an individualized learning plan for professional growth. The Head Start Performance Standards require Individual Professional Plans. By designing an overall individual professional development plan, learners will broaden their skills and abilities to better perform their jobs in a systematic way. In addition, an individual professional development plan will help learners determine what skills and abilities they need to obtain if they want to apply for another type of job within the early care and education field. PDI has developed a career lattice that lists qualifications for a variety of positions in the early education field. Learners will be able to choose learning activities approved for CEUs that will best meet their professional growth in the field.

3. Learning activities approved for CEUs must meet higher standards than the standards for clock hour training. The Kansas Department of Health and Environment (KDHE), Child Care Licensing and Registration has agreed to accept CEUs for Kansas Early Education and School Age Programs to meet the inservice clock hour requirements for licensing renewal. One CEU is equal to 10 clock hours

1 Inservice Clock Hour = .1 CEU
5 Inservice Clock Hours = .5 CEU
10 Inservice Clock Hours = 1.0 CEU

4. Learning activities approved for CEUs meet the criteria established for CDA renewal. Learners may use CEUs for Kansas Early Education and School Age Programs to meet the CDA renewal requirements.
5. Learning activities approved for CEUs meet minimum criteria as established by the IACET. Learners will receive nation-wide recognition for their CEUs for Kansas Early Education and School Age Programs.
6. Sponsors of learning activities approved for CEUs must send documentation to KACCRRRA where it will be maintained for seven years. Learners will be able to obtain information from KACCRRRA during that time period should the original documentation be lost or destroyed.
7. KACCRRRA will maintain information necessary to provide a permanent transcript of CEUs for each individual earning CEUs for Kansas Early Education and School Age Programs. The sponsoring agency is required to send the documentation form to KACCRRRA with a fee of \$5.00 per person.
8. Learners will be able to obtain a transcript that documents all of their CEUs for a fee of \$10.00 for each transcript requested.

Responsibilities of the learner

The responsibilities of the learner are as follows:

1. Choose learning activities based on their individualized professional development plan to enhance job skills, abilities and knowledge.
2. Attend and participate in all scheduled learning activities and complete the requirements for demonstrating acquisition of the stated learning outcomes. Be sure they understand what is expected. Ask questions if clarification is needed.
3. Participate in the evaluation of the learning activity and provide honest answers to the evaluation questions. Instructors and sponsoring agencies use evaluations to improve learning activities.
4. Register for the CEUs in advance and pay the appropriate fee to the Sponsoring Agency.
5. Report any learning activities approved for CEUs that they believe did not meet the minimum criteria to:

Kansas CEU Council, Becky Woerz, PDI Project Director
2025 Canterbury Rd, Emporia, KS 66801-5409
Toll free: 1-877-678-2548
Phone: 1-620-343-3491
Fax: 1-620-343-8654
E-mail: becky@kaccrra.org

How does a Sponsoring Agency obtain approval?

A sponsoring agency obtains approval in the following ways:

1. Sponsors of CEUs for Kansas Early Education and School Age Programs need to have a clear understanding of the intent for CEUs as stated on Pages 1 and 2 of this document.
2. Sponsors of CEUs must design learning activities to meet the ten criteria governing the use of CEUs for Kansas Early Education and School Age Programs as stated on page 2 of this document. A checklist to assist sponsors is located on page 10.
3. Sponsors of CEUs must accept responsibility for the quality of their learning activities.
4. Sponsors are responsible for obtaining qualified instructors or supervising instructors as outlined on page 9.
5. Sponsors of CEUs for Kansas Early Education and School Age Programs must allow the review of records by the CEU Council and/or the Council for Professional Development Recognition that governs the Child Development Associate Credential upon request.
6. Sponsors of CEUs must submit all required materials for review by the CEU Council in advance of the scheduled learning activity and be received PRIOR TO MARCH 1, JUNE 1, SEPTEMBER 1 AND DECEMBER 1 to allow time for the approval review.

Learning Activity Scheduled For	Application Due
January, February, March	December 1
April, May, June	March 1
July, August, September.....	June 1
October, November, December	September 1

7. A Review Fee of \$30.00 made payable to the Kansas Association of Child Care Resource and Referral Agencies (KACCRRRA) must be submitted with the required materials. The \$30.00 Review Fee is NON-REFUNDABLE. There are no exceptions.
8. Sponsors of CEUs must not advertise that learning activities are approved for CEUs for Kansas Early Education and School Age Programs prior to obtaining written approval from the CEU Council.
9. Sponsors of CEUs must provide written documentation (which may be in the form of a Certificate of Attendance) to individual's who have completed all requirements of the learning activity including demonstration by the learner that outcomes were achieved (see Certificate of Attendance).

Sponsors of CEUs for Kansas Early Education and School Age Programs must NOT award CEUs to learners who do not complete all requirements of the learning activity including demonstration by the learner that outcomes were achieved. Learners who do not complete the requirements for CEUs for Kansas Early Education and School Age Programs may be issued a Certificate of Attendance for Clock Hours.

CEUs ARE WHAT

The process of application and approval

Procedures

1. The Kansas Association of Child Care Resource and Referral Agencies (KACCRRA) CEU clerk will check applications for CEUs for submission of the CEU Application Form, Instructor Education/Experience Form, CEU Documentation Form, CEU Certificate of Attendance, Evaluation Form and Review Fee. See checklist, page 13.
2. If any forms, the fee or signatures are missing; the CEU clerk will contact the sponsoring agency to request the missing items. The sponsoring agency will have 5 (five) working days to submit the missing items.
3. The CEU clerk will copy complete submissions and mail to the CEU Council. The CEU Council will review the applications using the “CEU Approval Form for Learning Activities for Kansas Early Education and School Age Programs.” KACCRRA will keep the “official records” of learning activities submitted, completed review forms, and the database for individual’s completing learning activities for CEUs.
4. CEU Council members will review submitted learning activities. Learning Activities will be determined to be approved (meeting minimum requirements), conditional (needing minor clarification) or not approved (not meeting minimum requirements). CEU Council members reviewing the learning activity will sign off on the “CEU Review Form for Learning Activities for Kansas Early Education and School Age Programs”. The completed CEU Review Forms will be returned to KACCRRA.
5. The CEU clerk will assign a CEU Approval Number (beginning with YR-CEU-001) for approved learning activities. The CEU clerk will send a letter of approval to the Sponsoring Agency of each learning activity approved. The approval letter of notification is to include the CEU approval number, state that the approval number is to be noted on the Certificates awarded by the Sponsoring Agency for CEUs completed, and state that the learning activity is approved for a period of 5 (five) years unless there is a change in instructor, curriculum or learning objectives. The sponsoring agency is to notify KACCRRA of any learning activities that have been cancelled.
6. If conditional, a member of the CEU Council will contact the Sponsoring Agencies requesting additional information. Sponsoring Agencies with conditional approval will be given 10 (ten) working days to submit additional information to meet CEU requirements for learning activities. If necessary, a sub-group of the CEU Council will review additional information submitted to determine compliance, complete a CEU Review Form and notify KACCRRA of the final determination for approval of CEUs. The CEU clerk will send a letter of approval to the Sponsoring Agency, as noted in #5 (five) above. Learning Activities that do not meet minimum requirements after the second review must submit a new and complete application (including CEU fee) for CEU approval for review through the normal procedures.
7. If not approved, the sponsoring agency will receive a notification of why the applicant was not approved.
8. The Sponsoring Agency will be notified regarding the status of the CEU application within 30 days of the submission deadline.

Clarifications

1. Core Competencies content area, individual competencies and level of the learning activity must be clearly identified on the CEU Application (Example: Content Area

- Sub Category, Level a, b, c, d — see example on page 15). Sponsoring Agencies should carefully review the Instructions Chapter before submitting materials to ensure that minimum requirements are met.
2. Course descriptions may not be submitted in lieu of the CEU Documentation Form. All materials requested must follow the format outlined on the CEU Application Form and CEU Documentation form for the purpose of continuity in the review process. All forms must be completed as provided in the CEU Handbook for Kansas Early Education and School Age Programs. Programs may scan forms into computer format for use as long as no changes are made to the forms.
 3. A change in topic or course constitutes a separate learning activity. Each learning activity must be submitted for review separately (including all required forms and review fee).
 4. The approval for CEU is issued to the Sponsoring Agency, Instructor and the reviewed Learning Activity. The sponsoring agency is responsible for notifying the KACCRRRA of dates and locations of approved Learning Activities offered on a repetitive basis. The sponsoring agency is also responsible for notifying KACCRRRA of any date changes or cancellations. The Notification Form should be sent to KACCRRRA **PRIOR** to the date of the learning activity and is to include the CEU Approval Number and the original date of approval.
 5. A \$5.00 (five) fee payable to KACCRRRA is to be submitted with each Notification Form. Each dates and location requires notification and the appropriate \$5.00 (five) fee. The Sponsoring Agency may offer the approved learning activity at any location throughout the state.
 6. Sponsoring agencies must submit information for each person successfully completing CEUs with a \$5.00 Registry Fee for each person to KACCRRRA within 30 days of completion of the learning activity.
 7. Fees were determined to “break-even” on costs and no funding is available for the project. NO fees will be waived.
 8. CEU applications must be POSTMARKED by the deadline stated in the CEU Handbook for review.
 9. Submission of CEU applications will be accepted by fax or e-mail up to and including the deadline date. The original application and fee must be mailed by the NEXT working day.

CEU Council Make Up

The 10-member CEU Council has the following make up:

- 2 - Higher Education
 - 1 each from a 2 year and a 4 year institution
- 1 - Resource and Referral
- 1 - Community Based Training Organization
- 1 - Kansas Department of Social and Rehabilitation Services
- 1 - Kansas Department of Health and Environment,
Child Care Licensing and Registration
- 1 - Kansas Department of Education
- 1 - Child Care Providers Coalition of Kansas
- 1 - Kansas Association for the Education of Young Children
- 1 - Kansas Head Start Association

Instructions

How to write Learning Outcomes

What are learning outcomes?

Learning outcomes are statements that describe what an individual is expected to learn upon completion of a learning activity. They define the intended behavioral change or outcome (i.e., knowledge, skill, and attitude) in precise terms, describe how the learner will demonstrate this achievement and establish indicators of acceptable mastery.

How are learning outcomes written?

Learning outcomes consist of three important elements:

1. An action verb that identifies a measurable learner behavior
2. A clear description of the content of principle that is to be learned
3. Limits of satisfactory proficiency

An action verb is used to describe the way in which learners will demonstrate what knowledge or skills they have obtained. These behaviors are spelled out in terms that are precise and clearly observable or measurable at the end of the learning activity, such as:

to organize	to list	to problem-solve	to plan
to select	to describe	to compare	to draw
to discuss	to interpret	to outline	to justify

In contrast, statements such as “to understand”, “to know”, or “to enjoy” are ambiguous and lack specific, measurable outcomes. Changes in attitudes, values, or beliefs involve a more complex form of learning and, therefore, are also difficult to evaluate. These behaviors often develop over an extended period of time and cannot be measured immediately.

Learning outcomes must also include a statement that identifies the specific subject matter, concept, or skill, which the learner is expected to obtain and establishes precise criteria for determining acceptable performance.

The following examples of learning outcomes illustrate how the three elements are combined to provide a concise statement of measurable outcomes.

Why are learning outcomes important?

When written in the early stages of lesson or program development, learning outcomes serve important functions for the instructor and the learner in the following ways:

1. Aid the instructor in identifying and selecting relevant content matter
2. Help to identify instructional techniques that are efficient and effective

3. Provide a framework for evaluating and measuring the extend of learner performance
4. Yield useful information about the quality of instruction (i.e., whether content, organization, and instructional methods were effective in promoting learning)
5. Improve learning by identifying key issues and content at the outset of an instructional session. Knowing what an instructor considers to be important at the beginning of an instructional experience helps learners to organize information in a meaningful way and promotes comprehension

Learning outcomes must be realistic and achievable given time and content limitations present during an instructional session but should maintain the integrity of CEUs.

Minimum Qualifications for the Instructor(s) or supervising instructor for CEUs

The following minimum qualifications apply to the Instructor(s) of the learning activities. If the Instructor does not meet the minimum qualifications, a Supervising Instructor who does meet the minimum qualifications must be involved with the design, development and implementation of the learning activities. The Supervising Instructor will be held accountable to ensure that the learning activity meets the minimum quality requirements for Early Childhood CEUs for Early Education and School Age programs.

Education and Experience will include either 1(a), (b), or (c) AND 2 as follows:

1. Education meeting either a, b, or c below:
 - a. Master's or other advanced degree from an accredited 4-year college or university in education/early childhood education (minimum of 18 semester hours in early childhood education/child development covering children ages birth through five years, OR
 - b. Master's or other advanced degrees from an accredited 4-year college or university in elementary/secondary education (minimum of 18 semester hours in elementary education/child development covering children ages 5-18 for school age learning activities applications.
 - c. Master's or other advanced degree from an accredited 4-year college or university in the content area of the learning activities being taught with a minimum of 3 semester hours in early childhood education/child development covering children ages birth through five years. For example, nutrition learning activities may be taught by a mater-level registered dietician/nutritionist.
2. Previous work in or with the early care and education field or school age programs working directly with children as a caregiver or in some professional capacity with families or caregivers.

The instructor must also be knowledgeable and have abilities in the following areas:

1. Able to relate to people of various backgrounds;
2. Able to facilitate small group interactions, problem-solving activities, and use other appropriate instructional methods (videos without group interactions will not be approved for CEUs), plan sessions based on suggested topics, and meet the needs of adult learners,
3. Able to communicate effectively,
4. Knowledgeable about the content of the learning activity and with local and national requirements, standards, and guidelines that apply to the audience,
5. Able to design and implement learning activities based on clear, measurable learning outcomes appropriate for the learning activity,
6. Able to design and implement learning activities based on the Core Competencies for Early Care and Education Professionals in Kansas and Missouri, and
7. Knowledgeable about the requirements for CEUs for Kansas Early Education and School Age Programs.

Checklist for sponsoring agencies for learning activities meeting minimum early childhood CEUs

The following checklist was designed to assist Sponsors of Learning Activities in reviewing requirements for CEUs for Kansas Early Education and School Age Programs. The checklist is not meant to replace information provided in the CEU Handbook. Sponsoring Agencies should become familiar with all information in the CEU Handbook.

- Learning activities are in response to education needs that have been identified for the target audience.
- Learning activities contribute directly to the learner's professional competence in the field of early care and education.
- Qualified instructional personnel are involved in planning and conducting of each learning activity (see "Writing Learning Outcomes", page 8).
- Education/Experience Form (see "Education/Experience Form", page 16) is on file for each Instructor and Supervising Instructor, if a Supervising Instructor is required.
- Content and instructional methods are appropriate for the intended learning outcomes of the learning activity.
- The learning activity is designed for post high school level.
- The learning activity is designed for a minimum of a total of four contact hours and each instructional session is conducted in at least 2 hour per contact time periods.
- The learning activity is scheduled to begin and end within a reasonable overall time frame that is conducive to adult learning.

- Learning outcomes are clear and measurable (see “Writing Learning Outcomes”, page 8).
- Evaluation method of acquired skills, knowledge and ability by learners is appropriate and measurable for the identified learning outcomes.
- An appropriate learning environment and support services are available.
- Learners are provided the opportunity to evaluate the learning activity including the relevance of the content, teaching effectiveness of each instructor, participant’s achievement of each learner outcome and the appropriateness of the physical facilities.
- The Sponsoring Agency submits the documentation form for each individual participating for CEU credit to KACCRRRA who can provide a copy of that record upon request for at least seven years.
- The record of CEU learning activities includes the following information: title of the learning activity, date the activity was completed, number of CEUs awarded, names and contact information for each person attending the learning activity, contact information for the Sponsoring Agency and signatures of the Instructor and Supervising Instructor (if required), and a copy of the approval letter issuing the CEUs from the CEU Council.
- A written certificate for CEUs will be awarded to learner’s who have completed all requirements of the learning activity including demonstration by the learner that outcomes were achieved.
- A written certificate for clock hours will be awarded to individual’s who completed the learning activity but did not demonstrate that outcomes were achieved.
- The Sponsoring Agency has an identifiable unit, group or individual with clearly defined responsibilities for developing and administering learning activities.
- The Sponsoring Agency has a review process in operation that ensures that CEU criterions are met.
- All required materials are submitted to the CEU Council for review prior to the learning activity and received PRIOR TO MARCH 1, JUNE 1, SEPTEMBER 1 AND DECEMBER 1.

Learning Activity Scheduled For	Application Due
January, February, March	December 1
April, May, June	March 1
July, August, September	June 1
October, November, December	September 1

REQUIRED MATERIALS ARE TO BE SUBMITTED WITH A \$30.00 REVIEW FEE made payable to Kansas Association of Child Care Resource and Referral Agencies (KACCRRRA). Learning activities will not be reviewed without the submission of the fee. The \$30.00 Review Fee is NON-REFUNDABLE. There are no exceptions. Incomplete applications are NOT guaranteed consideration in a timely manner.

- Identification information for each learner earning CEUs for inclusion in the database on CEUs must be submitted to the Kansas Association of Child Care Resource and Referral Agencies, P.O. Box 2294, Salina, KS 67402-2294 along with a \$5.00 per learner fee within 30 days completion of the learning activity. Sponsoring Agencies may include the \$5.00 fee for the CEU in a registration fee charged to the learner or the Sponsoring Agency may choose to pay the fee for each learner.

How to use these forms

There are a total of 5 forms that need to be submitted, 3 of which are included in this booklet for you to copy and use and 2 examples of other required documentation. Following each of 3 forms is a completed sample. It is shaded blue. **Please be sure to use accurate training titles and include area codes and zip codes.**

Instructions and additional information for completing the Application Form for CEUs for Kansas Early Education and School age Programs

1. List all information requested for the Sponsoring Agency. Individuals cannot be Sponsors.
2. List the name of each Instructor and the name of the Supervising Instructor, if the Instructor does not meet the minimum qualifications as specified in the CEU Handbook for Kansas Early Education and School Age Programs, on the Education/Experience Form. Complete and attach an Education/Experience Form for each individual named. If Education/Experience Forms for the Instructor and/or Supervising Instructor are already on file with the CEU Council, please indicate that on the form and DO NOT send an additional Education/Experience Form unless instructor's education or experience has changed.
3. If the identical learning activity is to be repeated at several different times and/or locations, list each time and location. If the identical learning activity is repeated continuously on an on-going basis, state as a "Repeated Identical Learning Activity" and submit those times and locations known. Once a "Repeated Identical Learning Activity" is approved for CEUs, the learning activity does not need to be resubmitted for continued approval AS LONG AS THERE ARE NO CHANGES MADE TO ANY PART OF THE LEARNING ACTIVITY. The Notification Form and the \$5.00 fee should be sent as needed. Any changes made, including a change in instructors or supervising instructor requires that the learning activity must be re-submitted for review. CEU APPROVAL APPLIES FOR A PERIOD OF NOT MORE THAN FIVE YEARS FROM THE DATE OF APPROVAL. At the end of five years, the learning activity must be updated and re-submitted for review.
4. Specify the target audience. For example, infant/toddler teachers, family child care providers, cooks/nutrition early childhood personnel, school age program staff, etc. If more than one audience is targeted, list each separately.
5. Specify the Core Competencies content area, subcategory, level and individual comps identified from the Core Competencies for Early Care and Education Professionals in Kansas. A copy may be obtained from your local resource and referral agency or KACCRRRA at PO Box 2294, Salina, KS 67402-2294. The toll free number is 1-877-678-2548. The e-mails address is kaccrra@kaccrra.org.
6. The total number of CEUs that will be approved is based on actual contact time with the learner and does **NOT** include breaks for snacks or meals. Remember that 1 CEU is equal to 10 clock or contact hours. CEUs will not be issued for learning activities that require less than a total of 4 contact hours. Learning activities may be conducted in not less than a 2-hour per contact time period. Learning activities must be scheduled to begin and end within a reasonable overall time frame that is conducive to adult learning.

7. Submit a complete description of the learning on the top portion of the Documentation Form. The Learning Activity must be at the post high school level. Learning Activities intended for the high school level or below, such as the Red Cross Babysitting Course, will not be approved for CEUs. The Learning Activity must be intended for professional growth in the early education profession. The Learning Activity must be intended to refine learner knowledge, build learner self-confidence, and enhance the transfer of learning. Learning Activities intended for a general audience, such as a community-wide music concert, or for parents will not be approved for CEUs. Content and instructional methodology must be interactive and intended for adult learners. Content and instructional methodology must be consistent with the stated learner outcomes.
8. Submit a copy of the evaluation form (see example) that is to be used. Learners must be allowed the opportunity to evaluate each trainer, learner understanding of the outcomes as stated for the learning activity, learner satisfaction with the learning activity, and learner satisfaction with the physical setting. Sponsors may include additional evaluation options.
9. Certificate of Attendance — see example on page 20.

Checklist of items to submit:

- Application Form
- Education/Experience Form
- Documentation Form
- Evaluation Form
- Certificate of Attendance
- Application Fee

Please Note: The Kansas Department of Health and Environment (KDHE) Child Care Licensing and Registration Section has agreed to accept learning activities approved for Kansas CEUs to meet the clock hour requirements for licensing renewal.

Sponsors should **NOT** submit identical information to KDHE for approval for clock hours. Issuance of the Certificate of Attendance for CEUs to the individual learner may be used by the learner as documentation for re-licensure clock hour training requirements.

CEUs are not intended to replace clock hours or credit hours. CEUs should be considered an additional option much like a bridge between clock hours and credit hours. Sponsors of learning activities are encouraged to contact local community colleges and/or colleges to pursue credit hours whenever possible. Credit hours may be issued independently or in conjunction with CEUs.

Kansas Early Childhood CEUs APPLICATION FORM

All information on this form must be completed including required attachments and received according to chart on page 5. A \$30.00 Review Fee made payable to the Kansas Association of Child Care Resource and Referral Agencies must be included with the application materials. The \$30.00 Review Fee is NON-REFUNDABLE. Incomplete applications are NOT guaranteed consideration in a timely manner. Please **PRINT or TYPE** all information.

Discuss how positive and negative influences affect the brain development Plan age appropriate activities that provide stimulating and appropriate experience for the brain 				
	NAME OF INSTRUCTOR (Please Print) Lynne Owen		INSTRUCTOR'S SIGNATURE <i>Lynne Owen</i>		DATE 02/26/01
	TO BE COMPLETED FOLLOWING LEARNING ACTIVITY	WHAT DID YOU LEARN AND WHAT WILL YOU DO? (COMPLETED BY LEARNER) This training covered 4 very important areas as it relates to the overall development of a child. Focusing on the brain in (1) language development in infants, (2) attachment and development from birth to 6 months, (3) the arts with infants and toddlers, and (4) the adult role.			
INSTRUCTOR'S REVIEW OF LEARNER ACHIEVEMENT (COMPLETED BY INSTRUCTOR) Mrs. James presented information from her assigned reading to the group and related the information (language development) to observations she had made in her child care center. She strongly emphasized communicating with young children and being keen observers of their language.
