

Kansas Quality Rating and Improvement System Quarterly Data Report

The following definitions are provided to help in reading and interpreting the report information.

Report Definitions for Provider and Referral Data

Provider and referral data is retrieved from NACCRRAware, a database system that Child Care Aware® of Kansas and its member agency call centers use to collect and store information.

- **Reporting Period:** The date range for the information that was pulled for the report.
- **Licensed provider:** A program that is licensed with the Kansas Department of Health and Environment (KDHE) Child Care division. This does not include legally exempt programs.
- **Child Care Center:** A center-based early learning program; including KDHE licensed and license-exempt programs.
- **Family Child Care:** A licensed family child care home or licensed group home.
- **Desired Capacity:** The number of children that a program is willing to care for at one time. This total can be equal to or less than the actual licensed capacity of the program.
- **Vacancies:** The number of open child care slots reported by the program.
- **Number of QORIS Referrals:** The number of times QORIS rated sites have been referred to families.
- **Number of QORIS Sites Referred:** A count of the number of QORIS rated programs that have been referred.

Report Definitions for QORIS Rating Data

QORIS rating data is stored in the QORIS Ratings Database. Quarterly Report data provides information on the number of quality ratings completed within the quarter; it does not provide the number of currently rated programs. A separate report of currently rated programs can be found on the Child Care Aware® of Kansas website.

This section of the report is broken down into each star level received: 5 Stars (highest rating), 4 Stars, 3 Stars, 2 Stars, 1 Star. The following data is provided for each star level:

- **QORIS Rated Programs:** The number of programs that are rated during the reporting period.
- **Classrooms Rated:** The total number of classrooms within those programs, rated during the reporting period.
- **Children Enrolled:** The total number of children enrolled in the program at the time of the rating.
- **Families Served:** The total number of families that are served in the program at the time of the rating.
- **Average Overall Points:** The average total points earned by the program at the time of the rating.
- **Average Learning Environment Points:** The average total points of the learning environment component earned by the program at the time of the rating. Points range from 0 – 10 points.
- **Average Family Partnership Points:** The average total points of the family partnership component earned by the program at the time of the rating. Points range from 0 – 10 points.
- **Average Training and Education Points:** The average total points of the training and education component earned by the program at the time of the rating. Points range from 0 – 10 points.
- **Average Adult:Child Ratios/Group Size:** The average total points for the ratios and group size component earned by the program at the time of the rating. Points range from 0 – 10 points.
- **Average Accreditation Points:** The average total points of the accreditation component earned by the program at the time of the rating. Points range from 0 or 2 points.

Notes:

- Programs must earn at least 2 points in the learning environment component in order to achieve higher than 1 Star.
- 0 – 9 points = 1 Star
- 10 – 17 points = 2 Stars
- 18 – 25 points = 3 Stars
- 26 – 33 points = 4 Stars
- 34 – 42 points = 5 Stars

Report Levels

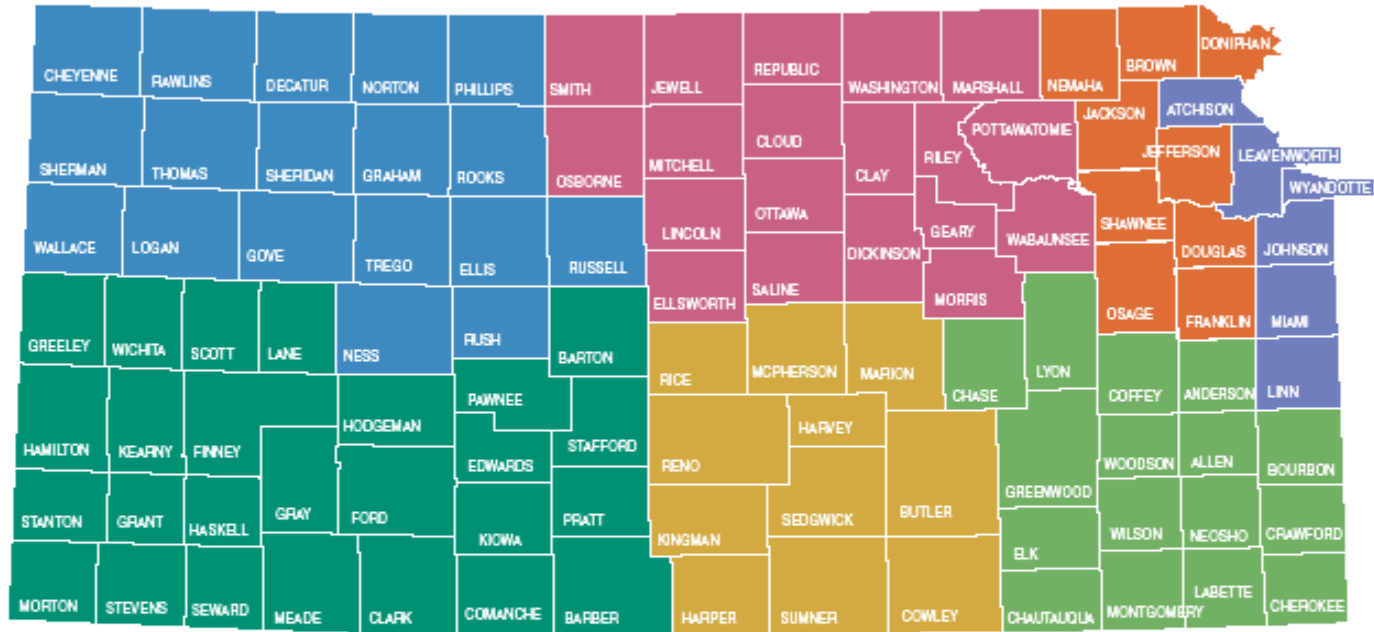

Reports are provided on three levels:

- **Statewide:** The data includes the entire state of Kansas
- **Service Delivery Area:** The data is filtered by Child Care Aware® of Kansas member agency R&R service delivery area
- **County:** The data is filtered by each county in Kansas. This data only includes counties in which there is an active QORIS Quality Rating.
