#### SERVICE DELIVERY AREAS

Four Child Care Resource and Referral Agencies (CCR&Rs), located across Kansas, provide services to all 105 counties. Together, we offer many services for families, child care providers and community members.

Our Resource Center makes finding quality child care programs quick and easy for parents and families.

For child care providers and early learning staff, professional development opportunities and resources are available.

For local communities, supply and demand data paints the picture about child care.

These are just a few of our many services - for more details about all of the work we do, please contact your local CCR&R.

## Why should you, as a child care professional, update your child care program information with us?

The information is used to inform parents about child care programs that have openings for their child(ren), based on the parent's needs. It's an efficient and informative way for parents to begin their child care search. In fact, over **13,000 families** connect with us each year when they are looking for child care.

To keep information about child care current, Child Care Resource and Referral (CCR&R) Agencies complete quarterly phone calls to child care programs. Some of the important information the CCR&Rs update when conducting phone calls includes the number of child care **openings available**, how many children are currently enrolled, the current **cost of care** for each age group of children and if the child care program offers care during **non-traditional hours** (evening, weekend, overnight).

The information collected also helps to paint a picture for partners on how funding and support for early childhood programs can positively impact the future for Kansas children. Comprehensive, informative reports are created to spotlight challenges experienced by hardworking child care professionals.

Two recent reports include the **2018 Kansas Child Care Workforce Study and Child Care Profile** and the **2018 Child Care Supply Demand Report**. These reports would not be possible without child care professionals taking time to update their program information with us regularly.

So, the next time the phone rings and it's your local CCR&R, take a few minutes and update your information.

**It benefits all of us!**

# FAMILY FOCUS

## Grow With Me!

Gardening is a great activity to connect with your family. Create memories with your children while expanding their vocabulary, exploring nature, experimenting, making predictions, making observations and learning about food.

Gardening is a great lesson in patience, success, and mistakes. We all know people with a 'green thumb' and others that kill every green thing that comes close to them. Research plants, visit a community garden, involve the family in selecting seeds or plants, write out a plan, and decide on a schedule to care for your new plants.

Another great way to include children is creating a gardening journal. Document the process with pictures, drawings, plant labels/ seed packets and journal entries.

Gardening is a lasting activity that can be done all year long!

### Provider Appreciation Day Celebration

On Saturday, May 4th, The Family Conservancy hosted an annual event to honor and celebrate programs in the area that work diligently every day to make a difference in the lives of young children and families.

Over 80 participants joined us as we presented the first annual Excellence in Early Care and Education Award. Those in attendance enjoyed breakfast and access to many resources including a presentation from Sesame Street in Communities. Each participant received a gift bag and a chance to win one of the many fabulous door prizes.

Provider Appreciation Day is a special time set aside the Friday before Mother's Day to thank child care programs for the services they provide to children and their families. For more information about Provider Appreciation Day, go to: <http://www.providerappreciationday.org>

## eLearning: Early Education Classes online

Online courses through The Family Conservancy are designed to help early childhood professionals complete annual training requirements and acquire required training hours for those seeking a Child Development Associate (CDA) credential, CDA credential renewal or in-service training.

Our courses provide a variety of engaging topics designed specifically for the early childhood professional. Courses are convenient and can be accessed from almost any computer with Internet access - no matter where you are.
