

In Kansas, over 80% of mothers choose to breastfeed. These families look for child care providers that support their decision.

A child care provider education class **“How to Support Breastfeeding Mothers & Families”** is now available from the Kansas Child Care Training Opportunities in partnership with the Kansas Breastfeeding Coalition. This two hour training for child care providers will increase their understanding of breastfed baby behavior and how to support the breastfeeding relationship, using the latest techniques and research. Graduates of the class can proudly display the “We Care for Breastfed Babies” window decal at their program.

The class is approved by KDHE for 2 clock hours of in-service training. Register for **FREE** on-line course through Kansas Child Care Training Opportunities [HERE](http://kccto.org/programs/online-learning/registration-information) (<http://kccto.org/programs/online-learning/registration-information>).

Prefer in-person trainings? Contact Brenda Bandy, bandy@kansas.net, to schedule.

Prefer to watch a short video instead? <http://ksbreastfeeding.com/cause/child-care-provider-education/> for video and more resources.
