

# FAMILY FOCUS

## Indoor Family Fun

When the weather outside turns chilly or rainy, there are lots of fun activities your family can do together indoors!

Finding an activity that the entire family can enjoy isn't as hard as it sounds. Give these fun activities a try:

### INDOOR TREASURE HUNT

Hide several items throughout the house. Make a list and divide the family into two groups. The group who finds the most items wins.

### THEATER

Put on a skit or talent show. Give each family member a part and allow them to display their talent by singing, dancing, playing an instrument, etc. Kids love the chance to dress up and act. Pull out old clothes, shoes, scarves and costume jewelry to create costumes. Get the video camera and capture some memories that will last a lifetime!

### BAKE YUMMY TREATS

The whole house will go crazy with the smell of made-from-scratch bread. Children can help measure and mix and feel proud of their contribution when it's time to eat what they made.
