Four Child Care Resource and Referral Agencies (CCR&Rs), located across Kansas, provide services to all 105 counties. Together, we offer many services for families, child care providers and community members. Our Resource Center makes finding quality child care programs quick and easy for parents and families. For child care providers and early learning staff, professional development opportunities and resources are available. For local communities, supply and demand data paints the picture about child care. These are just a few of our many services - for more details about all of the work we do, please contact your local CCR&R.

**Child Care Aware of Kansas offices will be closed on
Monday, May 30th in observance of Memorial Day.**

Update Your Profile

Child Care Aware of Kansas provides a website which gives child care programs the ability to enter information about their program—such as hours/days of operation, age group vacancies, rates, training hours, transportation options, and much more.

Why would child care programs do this?

- Marketing of your child care program to new families
- Access to your child care profile 24/7
- Emphasizing your special areas of experience
- Assist in keeping child care data current for state/federal funding reports

As an early childhood professional, you play a key role in providing quality care and education for the children and families you serve. (<https://stage.worklifesystems.com/program/16>) [How to log in.](#)
