

CUSTOMIZED EARLY EDUCATION

BRIDGING THE EARLY CHILDHOOD WORKFORCE GAP, ONE PROFESSIONAL AT A TIME.

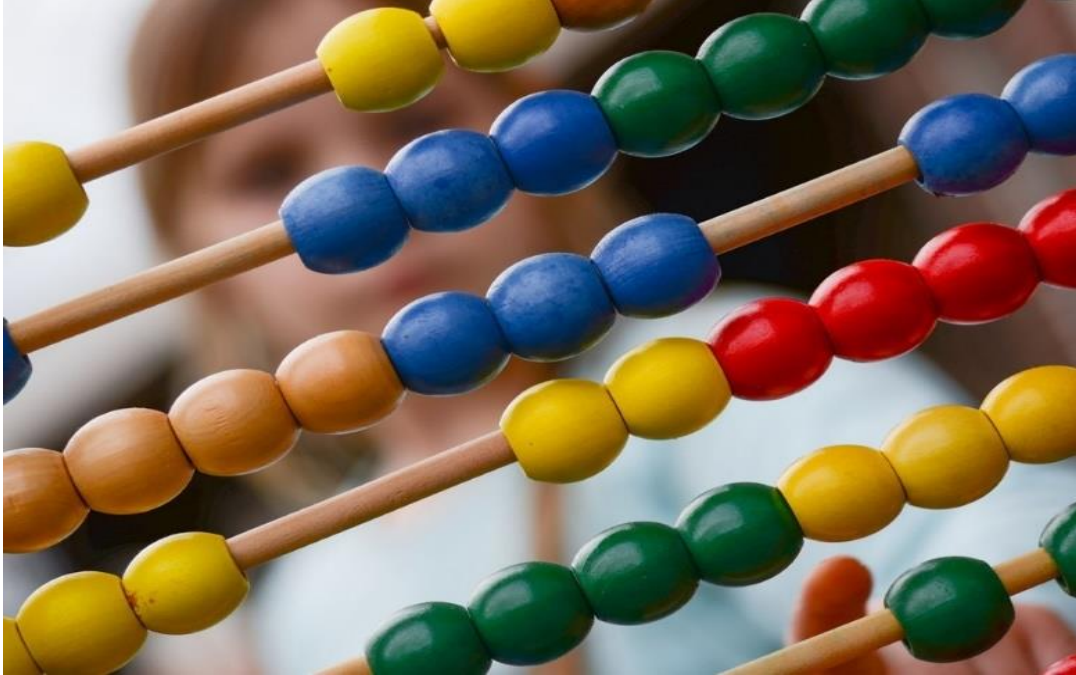

Introducing the Solution: Customized Early Education's Substitute Program

In the face of an ongoing staffing crisis within early childhood programs, Customized Early Education emerges as the beacon of hope for childcare directors and teachers, preschool programs, school districts, Head Start programs, and home childcare providers. The scarcity of qualified early childhood professionals has left these programs grappling with daily staff shortages, affecting their ability to provide quality care and education.

We have trained early childhood professionals with diverse levels of education and qualifications. Our team is fully prepared to step in and contribute to your programs seamlessly. Each professional possesses all the necessary KDHE credentials. Programs pay daily rates for substitute services. All other expenses are paid for by Customized Early Education.

We are here to help balance the early childhood care and education ecosystem.

Discover how Customized Early Education is transforming the early childhood landscape.

Contact us today to see if we are in your area. Providers must have a free, signed service agreement with Customized Early Education to be able to participate in the substitute program.
