

Check out Vroom!

What is Vroom?

Vroom.org and the Vroom app provide free, easy-to-use learning tips for children 5 and under. Vroom offers over 1,000 activities designed to help young brains grow strong. The early learning experts at Vroom created Vroom tips to complement existing efforts within communities.

Children's brains form rapidly during the first five years of life. During this time, you can help strengthen brain development by connecting and engaging with children in everyday moments. When you share positive interactions with young children you are helping lay a strong foundation for lifelong learning. With simple activities like these options from Vroom, you can turn routine activities into brain building ones!

Download the Vroom app for FREE today on Apple and Android devices. Visit vroom.org for downloadable resources and materials to create your own #BrainBuilding moments!
