

# CHILD CARE HEALTH CONSULTATIONS AVAILABLE

Child Care Aware of Kansas is excited to partner closely with the Kansas Department of Health and Environment team to launch the next phase of supports for licensed child care programs!

**High-quality Child Care Health Consultations are available to help child care providers identify ways to support health, safety and wellness in the program.**

**Providers will receive consultation services from a designated consultant in their public health region. The role of the Child Care Health Consultant is to promote the health and development of children, families, and staff and to ensure a healthy and safe child care environment.**

Licensed child care providers may request consultation services at [cchc@ks.childcareaware.org](mailto:cchc@ks.childcareaware.org) or at [www.ks.childcareaware.org](http://www.ks.childcareaware.org)

This project is supported by the Kansas Department of Health and Environment with funding from the Kansas Department for Children and Families (OIG) Coronavirus Relief Fund, federal funds available under section 601(d) of the Social Security Act, as added by section 5001 of the Coronavirus Aid, Relief, and Economic Security Act ("CARES Act")
